DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6 and 7-9, drawn to a rate generator for generating a plurality of frequencies, classified in class 370, subclass 518.
- II. Claims 10-14, drawn to a method of deriving a rate generator having a plurality of accumulators, classified in class 370, subclass 518.
- 2. Inventions 1-6 and 7-9 and 10-14 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions. Claims 1-6 and 7-9 disclose a rate generator for generating a plurality of frequencies. Claims 10-14 disclose a method of deriving a rate generator having a plurality of accumulators.
- 3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
